TARGET ROLE

Python Developer • Backend Developer • Machine Learning Enthusiast

PROFESSIONAL SUMMARY

Motivated BCA student with a strong foundation in Python, JavaScript, backend development, machine learning, and web development. Experienced in building AI-powered and full-stack applications using React.js, Node.js, Express.js, MongoDB, Firebase, Groq AI, and REST APIs. Skilled in Python programming, object-oriented programming, data structures, data preprocessing, machine learning, and problem solving, with a strong interest in software development and applied machine learning.

TECHNICAL SKILLS

Languages	Python, JavaScript
Python	OOP, Data Structures, Problem Solving
Frontend	React.js, HTML, CSS, Tailwind CSS
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB, MySQL
AI & Tools	Groq AI, Firebase, JWT, Git, GitHub
Machine Learning	Pandas, Scikit-learn, Random Forest, Data Preprocessing, Label Encoding

PROJECTS

AI Interview Copilot | AI-Powered Interview Preparation Platform

Tech Stack: React.js, JavaScript, Node.js, Express.js, MongoDB, Python, REST APIs, Groq AI, Firebase, JWT, Tailwind CSS

- Developed a full-stack AI-powered interview preparation platform for technical, HR, mock, and resume-based interviews.
- Implemented AI-powered resume analysis, personalized question generation, answer evaluation, scoring, interview history, and feedback.
- Integrated secure authentication using JWT, Firebase Google Login, OTP verification, password reset, and account management.
- Built interactive performance reports and analytics to evaluate communication, grammar, confidence, relevance, and professionalism.

Sonic Sorter Music | Music Genre Classification Application

Tech Stack: Python, Pandas, Scikit-learn, Random Forest, Machine Learning

- Developed a Python-based machine learning application for music genre classification.
- Used Pandas and Scikit-learn for data preprocessing and trained a Random Forest Classifier.
- Applied data preprocessing and label encoding to prepare the dataset and build the machine learning workflow.

Flutter Restaurant App

Tech Stack: Flutter, Dart, UI/UX Design, Responsive Design

- Developed a cross-platform restaurant application using Flutter and Dart.
- Designed a clean and responsive interface for menu browsing and user navigation.

CERTIFICATIONS & ACHIEVEMENTS

- Advanced Python Programming and Applied Machine Learning — 54-hour Certificate & Workshop
- Full Stack Java Development — 54-hour Certificate & Workshop
- UI/UX + HTML — 48-hour Certificate & Workshop

EDUCATION

Bachelor of Computer Application (BCA)
KLE GH BCA College, Haveri | CGPA: 7.7/10.0
